

**PUBLIC NOTICE-CUSTOMERS OF
LINCOLN COUNTY PWSD 1
FAILURE TO MEET MICROBIOLOGICAL MONITORING
REQUIREMENTS FOR DRINKING WATER**

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During **April 2022**, we did not complete all monitoring or testing for total coliform, and therefore, cannot be sure of the quality of our drinking water during that time. This is a violation of Missouri Public Drinking Water Regulations.

Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did to correct the situation. Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or by distributing copies by hand or mail.

Provide explanation of cause of monitoring failure:

The District collected and submitted nine of the 10 required monthly samples in April 2022. Please note that all required monthly samples collected and submitted before and after this missed sample are compliant.

For more information, please contact water system staff indicated below:

Lucas Drullinger at 636-528-8919 or 3451 S. Hwy W, Winfield, Mo 63389
(name of water system contact) (phone number) (mailing address)

Additionally you may contact the Department's St Louis Regional Office at 314-416-2960 or Public Drinking Water Branch at 573-526-6925.
